MACHINERY BREAKDOWN

THE FOLLOWING SPECIFIC DEFINITIONS ARE APPLICABLE TO THIS SECTION

“Breakdown” means the sudden and unforeseen physical destruction of or physical damage to machinery that requires repair or replacement to enable normal working to continue.

“Machinery” means any pressure equipment or other item specified in the schedule.

“Pressure equipment” means those parts of the permanent structure of, including but not limited to, a boiler, pressure vessel, economiser and super heater, and attached pipe systems which are subject to steam, gas or fluid pressure or vacuum, all belonging to Insured excluding geysers with a cylinder capacity less than 300 litres.

WHAT YOU ARE COVERED FOR

The Insurer will cover the machinery while it is:

- a) at work or at rest;
- b) being dismantled for the purpose of cleaning, inspection and overhaul, or removal to another position in the course of these operations themselves, or subsequent reassembly;

against damage which is not excluded in this section or excluded under the General Exclusions caused by breakdown that occurs during the period of insurance.

The maximum amount that the Insurer will pay is the sum insured as shown in the schedule.

SPECIFIC EXCLUSIONS – WHAT YOU ARE NOT COVERED FOR

- a) damage to machinery by any cause otherwise covered in this policy;
- b) damage resulting from experiments, overload or similar tests requiring the imposition of abnormal conditions or from the execution of repairs;
- c) temporary repairs and any consequences arising therefrom unless the Insurer have authorised the temporary repairs;
- d) consequential financial loss, loss of the use, or other indirect loss;
- e) rusting or scratching of painted or polished surfaces;
- f) repair or replacement of any part caused by or resulting from:
 - 1) wear and tear from ordinary use or working, or gradual deterioration;
 - 2) rust, corrosion, cavitation, erosion, oxidation, deposits of scale, sludge or other sediment;
 - 3) any direct consequences of progressive or continuous influences of atmospheric or chemical action, other than accidental contact with acids or other corrosive substances that cause damage which manifests itself within 24 hours of such accidental contact;but breakdown of other parts as a consequence of any of the foregoing is not hereby excluded;
- g) damage to machinery when the building is undergoing any extensions, alterations or renovations, and such damage results directly or indirectly from the building work;
- h) damage that occurs during the currency of a manufacturer’s guarantee, unless a claim is first made against the guarantor;
- i) the replacement or repair of any machinery illegally installed or altered;
- j) any costs associated with cleaning or maintenance services.

SETTLEMENT OF CLAIMS UNDER THIS SECTION

In the event of a claim for damage to machinery, the Insurer may at its sole discretion choose to:

- a) pay to repair the damage;
- b) replace what is lost or damaged if this is more cost- effective than repairing it; or
- c) settle the Insured’s claim in cash.

TOTAL LOSS

The basis of settlement will be the new replacement value immediately before the damage occurred, plus the costs of removing the damaged machinery.

MACHINERY BREAKDOWN

An insured item will be regarded as totally destroyed if the cost of repairs equals or exceeds the new replacement value immediately before the damage, less a reasonable amount for the use.

The Insurer will not pay for the costs of any alterations, improvements, maintenance or overhauls carried out during the repair or replacement.

PARTIAL LOSS

The basis of settlement will be the cost of restoring the machinery to working order, including the cost of transport, labour and the onsite cost of parts, assembly and custom dues, less the value of any re-usable parts.

In the case of repairable damage, the Insurer will pay the cost of repairs to restore the damaged item to its condition immediately before the damage.

The Insurer will also pay the cost of liquids, refrigerant gas or insulating oil, in order to complete the repairs.

The Insurer will not pay more than the estimated cost of similar parts for similar plant currently available, if replacement parts are unavailable or obsolete. If similar parts are unobtainable, the Insurer will not pay more than the manufacturer or suppliers' latest list price.

SPECIFIC CONDITIONS

1. The Insured must take all reasonable precautions to ensure that the machinery is maintained in good working order and neither habitually nor intentionally overloaded and that Government and other regulations relating to the operation of the machinery are observed. All maintenance must be carried out in accordance with the manufacturer's specifications and requirements.
2. The sum insured for each item of machinery specified in the schedule must be equal to the installed new replacement value at all times. If at the time of the damage the sum insured is lower than the installed new replacement value, then Insured will be considered to be the Insured's own insurer for the difference and Insured will bear a rateable share of the loss accordingly. Every item of machinery will be separately subject to this condition.
